DOE Awards Small Business Contract for Infrastructure Support Services at Paducah, Kentucky Site

Lexington, KY – The U.S. Department of Energy (DOE) today announced the award of a small business contract to Swift and Staley Mechanical Contractors, Inc. of Kevil, Kentucky. The contract has a value of \$75.6 million over a five-year period to continue infrastructure support services at the Paducah Gaseous Diffusion Plant site.

The Paducah Gaseous Diffusion Plant site is a DOE-managed, contractor-operated, environmental remediation project located on a federal reservation in Western Kentucky. The site is approximately eight miles west of Paducah, Kentucky, and 3.5 miles south of the Ohio River.

The major work areas for the project include: human resource management; surveillance and maintenance of facilities; janitorial services; grounds maintenance; roadway and parking lot maintenance; computer and telecommunications support; fleet management; real and personal property management; records management and document control; site security; environment, safety, and health program management environmental management; training services; and utility management.
